

What other people are saying about Intraceuticals

Eileen Harcourt
Professional Aesthetician
New York, USA

I have been an Aesthetician for over 20 years. Many of my clients are in the fast paced, high profile world of fashion, music and film. Due to their lifestyle, I never know what to expect... sensitivity, topical dehydration, dullness, blemishes – but I know that Intraceuticals can handle it all! It is truly beneficial for all skin types and I feel confident in my ability to give my client's both immediate and long lasting results.

I regularly give treatments to the celebrity and fashion photographer, Steven Klein and the Editor in Chief of Style.com, Candy Pratts-Price always has treatments during fashion week. I recently applied the Intraceuticals oxygen treatment to the models at the VPL fashion show and worked with the Mac Make-up team to create a luminous modern glow, the results were amazing and everyone was thrilled!

Intraceuticals is definitely the best kept secret in professional skin care and a tool that I can count on to restore and balance my client's skin while also helping them feel rested and relaxed.

Thank you Intraceuticals!
