

# intra-ceuticals

it's in the skin

## THE BEAUTY BAROMETER

FEEL-GOOD FACTOR

### WORKING FROM THE INSIDE OUT

The Intra-ceuticals Oxygen facial, is a non invasive treatment that targets fine lines, wrinkles and dramatically enhances overall hydration. Loved by our cover girl Madonna, Victoria Beckham and Justin Timberlake, it is now available on the coast.

You're tired, you're skin's dry and you look, basically a bit haggard. If this sounds like you, then look no further than the Intra-ceuticals Oxygen Facial now exclusively available at the CosmoClinic & Isabelle's Aesthetic and Beauty Centre.

Known as "Hollywood's best kept secret", these unique Oxygen Facials are used by many celebrities, models and leading makeup artists, as it provides instant results you can see and feel. At fashion week the models were ordered to have them, poor things, before the shows, as it removed any sign of jet lag and make up goes on like a dream.

The oxygen infused serum contains light-weight Hyaluronic Acid and a powerful combination of vitamins and antioxidants that penetrates the deepest layers of the skin, making skin tone bright and texture refined.

Unlike many treatments there are no extractions, it's pain free and relaxing. Your skin just feels amazing straight away! Perfect for before an important event.

The results really do speak for themselves; the therapist, after working on one half of your face will hand you a mirror to reveal the more pert, fresh and even complexion compared to the duller, saggier side. The facial hydrates the skin, immediately firms and

plumps it up to smooth out fine lines, while giving the complexion a nice glow, making it a fab natural alternative to injections.

In between your facial appointments, there is also a line of Intra-ceutical products that you can use to maintain maximum benefits of the Intra-ceutical Infusion treatment.

If unlike Madonna you cannot afford your own machine, then we suggest you book into Isabelle's sharpish. Form an orderly queue behind the Society team please.

Testimonials :

"There is nothing like Intra-ceuticals... it really helps you look and feel your best"  
- Victoria Beckham

"Last year, my make-up artist introduced me to the Intra-ceuticals Infusion treatment. My skin looked dehydrated and tired but after a 30 minute treatment, I looked like I had had a week's rest and I was amazed by the results. Everyone complimented me on my glowing skin and the results lasted. I would highly recommend this to anyone in a heartbeat; I love the fact that this is a non invasive natural, easy to use and very pleasant way to look my best."

- Katherine Jenkins

*"Beautiful young people are accidents of nature,  
but beautiful old people are works of art"*

- Eleanor Roosevelt
