Festive beauty treatments

Some beauty treatments are good, some less so. These are the ones we've found that actually make you look better

NEW FACE!

Eva reveals her secret to glowing skin

'I did it because of Mark'

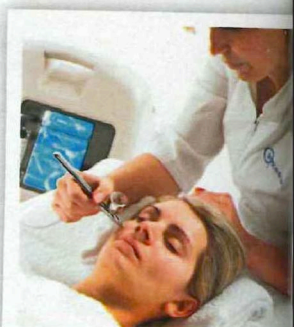

'People were evil about my looks'

3 The one to make your skin glow

Pep up your skin with an Intraceuticals Infusion facial, from £125 (www.intraceuticals.com).

It uses oxygen and hyaluronic acid to deliver active serums to the skin, leaving it looking brighter, firmer and clearer and the results actually improve in the hours following the treatment as the potent blend of vitamins and antioxidants begin to take effect.

Eva Longoria has described the treatment as 'a necessity before every major event' and Katy Perry says: 'I use Intraceuticals oxygen skin treatment to hydrate my skin and give me that fresh, well-rested, glowing look before any appearance.' High praise indeed.
