The no-tox Botox

If you want to get rid of fine lines and wrinkles but can't face the injection, try **Intracceuticals Atoxelene Line Wand, £73.95**. After years of research, the bio-chemistry team from Intracceuticals has combined medical and cosmetic science to develop a revolutionary skin care. This professional strength serum with botanical peptides directly targets lines and wrinkles, instantly reduces the visible appearance of skin ageing with long term results.
