

## Oxygen Facial

Posted Monday, 28 March 2011

MYFOXNY.COM - Oxygen is essential for life. But did you know it's just what your face needs for a quick pick me up?

FOX 5 's Dr. Sapna Parikh showed us how an oxygen facial can make you feel rejuvenated in no time.

The procedure is reportedly popular among celebrities including Madonna, Natalie Portman and Justin Timberlake.

First, the esthetician applies a serum of atoxylene - a protein substance that the makers claim will reduce fine lines and wrinkles. Next, the rejuvenate serum - a mix of vitamins antioxidants and hylauronic acid - is applied.

A metal device uses pressurized oxygen to push the serum into the skin - the goal of this so-called oxygen facial is to hydrate, soften and plump the skin.

Dr. Parikh gave the facial a try at Najia's Esthetique in Westchester County. Owner Najia Rohlf says she started using the [Intraceuticals](#) oxygen facial on herself after getting tired of the usual anti-aging injections ...
