#### Oscars Prep with **Intrac**euticals

It's just days before the Oscars and we're sure there are many nervous celebs over in tinseltown doing last minute preparation. The Oscars red carpet is one of the most important events on the Hollywood calendar and there is no question cameras, bloggers and every media hotshot will be at the ready documenting every celebs dress success or frock fail.

No matter what is worn, dull, dehydrated and less than clear skin are an instant and unwelcome distraction so in the days leading up to any big award, the biggest celebs use **Intrac**euticals **Infusions** Oxygen Skin to achieve a flawless finish.

Katy Perry swears by them, saying, "I use **Intrac**euticals oxygen skin treatment to hydrate my skin and give me that fresh, well slept, glowing look before any performance or appearance." Eva Longoria agrees, attesting "The treatments are a necessity before every major event." While Justin Timberlake simply says, "It makes my skin look dope."

We're sure there are more than a few celebs turning to this treatment to hide a multitude of sins!
