

Style Thursdays: IntraCeuticals Atoxelene Line Wand

You may remember my blog post about the Bay Dermatology Centre's pretty fabulous oxygen facial. Well, after seeing how dewy and lovely my skin looked after the treatment, I was quite curious about the hyaluronic acid gel that was sprayed onto my fine lines. It turns out that the stuff also comes in a use-at-home pen format so I immediately asked to try it. I got two: one for myself and one for my mom.

The Atoxelene Line Wand by [IntraCeuticals](#) promises to smooth expression lines and wrinkles without the pain or invasiveness of injections. My mom and I both tried it and were brave enough to share our before and after photos with you.

I really don't think there's much more to write. The photos say it all. This product works and once you realize that, it's addictive!

Before Atoxelene

After Atoxelene
