The Lane Spa now offers Intraceuticals oxygen infusion facial treatments

The Lane Spa now offers the [Intraceuticals](#) Oxygen Infusion Treatment, a facial treatment that provides instant, visible results that is healthy and safe for all skin types. This technologically advanced clinical skin care treatment uses a machine that infuses atomized moisturizers and high powered serums onto the skin using a stream of pressurized oxygen. It will hydrate skin immediately and temporarily diminish fine lines and tiny imperfections at the same time as plumping and smoothing the surface of the skin. You will see instant results for instant gratification.

To allow spa guests to enjoy these amazing results for a limited time the Lane Spa is offering a complimentary thirty minute facial with the purchase of the [Intraceuticals](#) Oxygen Infusion Treatment. The 30 minute facial is a \$59 value at no additional charge. The Lane Spa guests will enjoy the immediate satisfaction of this new treatment while at the same time as enjoying a relaxing and therapeutic facial. [Intraceuticals](#) Oxygen Treatments are also effective in treating hyper-pigmentation, helping reverse sun damage, and naturally adding volume and lift without expensive and invasive injections like Juva-derm or Botox ...
