MOISTURE-BOOSTING SERUMS

In these formulas targeted skin-drenching ingredients such as hyaluronic acid (a hydrating agent that's present naturally in the skin), algae extracts and antioxidants combine to quench thirsty skin, address moisture balance and help to soothe and protect against irritation. They directly address dryness and dehydration, helping to re-plump and rejuvenate and prevent damage that arises from a compromised protective lipid barrier.

Try: IntraCeuticals Rejuvenate Daily Serum, \$189; Skin O2 Medical Serum Hyaluronic Acid, \$59; La Prairie Cellular Hydrating Serum, \$280.
